Libertyville Township Highway Department Oak Spring Road Bridge Replacement

Public Informational Meeting #2 – March 16, 2020

PROJECT OVERVIEW

The Township Highway Department has secured Federal Funding through the Surface Transportation Program – Bridge (STP-BR) fund and the Statewide Township Bridge Fund to assist in the design and construction of a replacement bridge on Oak Spring Road over the Des Plaines River. The existing bridge was constructed in circa 1968. Despite regular maintenance by the Township, the bridge had continued to deteriorate. A number of inspections have been performed and determined that while the bridge is still safe to travel, the next appropriate step is to replace the structure.

KEY POINTS

- The new bridge will be constructed such that the bridge deck is above the 100-yr flood elevation.
- One 12-foot travel lane in each direction will be provided on the new bridge.
- An 8-foot wide path will be provided on each side of the bridge to accommodate future sidewalks / multi-use trails along Oak Spring Road.
- Township will stage materials and construction activities in the boat launch parking lot and will re-pave the lot when construction is complete.

FUNDING SUMMARY

The following table summarizes the cost sharing for the engineering and construction of the replacement structure.

PROJECT PHASE	TOTAL COST	FEDERAL FUNDS	STATE FUNDS	LOCAL TOWNSHIP FUNDS
PHASE I ENGINEERING	\$150,917.00	\$120,734.00	\$20,501.00	\$9,682.00
PHASE II ENGINEERING	\$200,000.00	\$160,000.00	\$10,000.00	\$30,000.00
CONSTRUCTION	\$2,500,000.00	\$2,000,000.00	\$100,000.00	\$400,000.00
CONSTRUCTION ENGINEERING	\$275,000.00	\$220,000.00	\$45,000.00	\$10,000.00
TOTALS	\$3,125,917.00	\$2,500,734.00	\$175,501.00	\$449,682.00
